# INTERNATIONAL JOURNAL *of* MEDICAL STUDENTS

**T**he *International Journal of Medical Students* (IJMS) is a peer-reviewed, open-access journal created to share the scientific production and experiences of medical students worldwide. Our objective is to be the primary diffusion platform for medical students, using standards that follow the process of scientific publication.

The Journal receives contributions and unpublished manuscripts of Original Articles, Short Communications, Reviews, and Case Reports, which are reviewed by experts (Peer-Reviewers) who have previously published similar research. In addition, the Journal accepts Interviews, Experiences, and Letters reviewed by the Editorial Team. This supports the quality and validity of the publications. The time between submission and final publication in most cases has been two to four months depending on the diligence of Peer-Reviewers and Authors.

The *International Journal of Medical Students* is published online triannually on behalf of the Executive Committee of the International Journal of Medical Students. The journal main office is located in the United States of America (USA). Any publication, dissemination or distribution of the information included in the Journal is permitted if the source is cited (*Int J Med Students*).

The *International Journal of Medical Students* is indexed or abstracted in: Bielefeld Academic Search Engine (BASE), Dialnet Foundation (Dialnet), Directory of Open Access Journals (DOAJ), Directory of Research Journals Indexing, Elektronische Zeitschriftenbibliothek (EZB), e-Revistas, Geneva Foundation for Medical Education and Research, Google Scholar, Health InterNetwork (HINARI), Journal Seek Database, List of Publications that follow the International Committee of Medical Journal Editors (ICMJE), Mexican Index of LatinAmerican Biomedical Journals (IMBIOMED), NewJour, Open Academic Journals Index (OAJI), Online Computer Library Center (OCLC) WorldCat, Pubshub, Research Bible, Rubriq, SHERPA/RoMEO, Scientific Indexing Services (SIS), The e-Journal Gateway (J Gate), The Open Access Digital Library, Ulrich's International Periodical Directory/Summon by Serial Solutions.

The Journal and the Editorial Board are not responsible for the opinions expressed by the Authors of all materials published, nor do these represent the Official Policy or medical opinion of the Journal or the institutions with which they are affiliated unless otherwise stated.

## **Open Access Policy**

This journal provides immediate open access to its content. Our publisher, the University Library System at the University of Pittsburgh, abides by the Budapest Open Access Initiative definition of Open Access to open access to peer-reviewed research literature as "(...) free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for

copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited.”

Furthermore, we encourage authors to post their pre-publication manuscript in institutional repositories or on their websites prior to and during the submission process, and to post the Publisher’s final formatted PDF version after publication. These practices benefit authors with productive exchanges as well as earlier and greater citation of published work.

*There are no article processing charges, submissions fees, or any other costs required of authors to submit, review or publish articles in the IJMS.*

### **Peer Review Process**

All papers submitted to the International Journal of Medical Students will undergo a two steps peer-reviewers process. The first step of revisions is carried by two anonymous Student Editors who will work together with one Associate Editor. In the second step, the manuscript will be reviewed by two anonymous reviewers (Editorial Board members, Associate Editors and/or invited reviewers with expertise in the subject matter). Authors will remain anonymous to all the referees.

The typical time taken to conduct the reviews is one to two months. However, we have several stages of revisions to guarantee higher quality publications. More information can be found at [www.ijms.info](http://www.ijms.info)

Reviewers and editors are obliged to retain the contents as privileged and confidential until publication. The Editor in Chief and the Editorial Board will have final authority over an article's suitability for publication.

### **Archiving**

This journal utilizes the LOCKSS system to create a distributed archiving system among participating libraries and permits those libraries to create permanent archives of the journal for purposes of preservation and restoration.

## Table of Contents

	Page
<b>Editorials</b>	
More than a Manuscript: The International Journal of Medical Students as an Educational Institution Paul MacDaragh Ryan.	108
Unmasking the Healthcare Issues Slipping through the Cracks during the Pandemic Manas Pustake, Ciara Egan, Annora A. Kumar.	110
<b>Original Articles</b>	
Prevalence and Progression of Ametropias in Medical Students Gustavo Costa Santos, Rafael Cunha de Almeida, Willany Veloso Reinaldo, Fernando Rocha Oliveira, Shaun Schofield, Roberto Conde Santos, Glauca Luciano da Veiga, Fernando Luiz Affonso Fonseca, Vagner Loduca Lima, Renato Galão Cerquinho Leça.	112
Trends and Challenges in Rural Homeless Veterans in The United States Celena Derderian, Anthony Easterday, David Driscoll, Sriram Ramaswamy.	117
Black Students' Perception of Belonging: A Focus Group Approach with Black Students at the Uniformed Services University of the Health Sciences Monnique Johnson, Wizard Seide, Althea Green-Dixon, Virginia Randall.	124
Improving Medical School Education on the Care of Sexual Assault Patients: A Quasi-Randomized Controlled Study Katherine Hoopes, Tessa Lewitt, Anum Naseem, Anne Messman, Sarkis Kouyoumjian.	129
Glucometers for Patients with Type 2 Diabetes Mellitus: Are they helpful? Andrew Thomas, Mohan T Shenoy, K.T. Shenoy, Nirmal George.	140
<b>Reviews</b>	
A Literature Review of Possible Barriers and Knowledge Gaps of General Practitioners in Implementing Advance Care Planning in Ireland: Experience from Other Countries Karendeep Somal, Tony Foley.	145
A Pan-Canadian Narrative Review on the Protocols for COVID-19 and Canadian Emergency Departments Sebastian Diebel, Eve Boissonneault.	157

## Case Reports

Spinal Cord Injury Induced Osteoporosis: Case Report and Current Literature 162  
Abdulai Bangura, Thomas Shuler, Lisa Wright, Anne Lake.

Familial Hyperinsulinism due to HNF4A Deficiency and Benign Premature Adrenarche: A case Report 167  
Edward Compton, David H. Geller, Alaina P. Vidmar MD.

## Experiences

The Experience and Perplexities of the COVID-19 Situation in Pakistan 171  
Amna Kaneez Fatima Raja, Mohummad Hassan Raza Raja, Maryam Ashfaq.

Is There A Doctor Onboard? 174  
Holly Cathryne Brownlee.

Reflection of a Second Year Medical Student: Navigating Medical School with Chronic Illness 176  
Marcel Blignaut.

## Letters to the Editor

Letter to the Editor Regarding “The Vigil of Medicine” 178  
Casey P. Schukow.
