SHORT COMMUNICATION

- Satisfaction of Medical Students with Surgical Training: A survey of Northern Italy

REVIEW

- Exploring Adult Patients’ Perceptions and Experiences of Telemedicine Consultations in Primary Care: A Qualitative Systematic Review

EXPERIENCE

- Working at a Cancer Research Laboratory as a Medical Student: Experience of an Indian Student Studying Medicine in Russia
- Assess, Adapt, & Innovate: An Effort to Ensure Sustainability of Medical Student-led Community Engagement during the COVID-19 Situation in Indonesia
The International Journal of Medical Students (IJMS) is a peer-reviewed open-access journal (ISSN 2076-6237) created to share the scientific production and experiences of medical students and recently graduated physicians worldwide.
The International Journal of Medical Students (IJMS) is an open-access, peer-reviewed scientific journal (ISSN 2076-6327) that publishes original research in all fields of medicine. The Journal was created in 2009 to share the scientific production and experiences of medical students (i.e., MBBS students, MD students, DO students, MD/MSc students, MD/PhD students, etc.) and recently graduated physicians from all over the world. Our objective is to be the primary diffusion platform for early-career scientists, using standards that follow the process of scientific publication.

The IJMS receives submissions where there is at least one author enrolled as a medical student in any medical school in the world or a recently graduated physician worldwide. For research articles, early-career scientists must be accompanied by a senior researcher that must be also responsible for the research, guaranteeing the quality of the work. We publish Original Articles, Short Communications, Reviews, Case Reports, Interviews, Experiences, and Letters, which follow an innovative and unique two-step, double-masked peer-review process, in brief:

The first step of revisions is carried out by two Student Editors (medical students with publications indexed in the US National Library of Medicine (NLM) with the supervision of an Associate Editor. The aim of this step is to improve the quality of articles and identify those that can proceed to external peer-reviews. The second step of revisions is carried out by external peer-reviewers who are researchers with publications indexed in the NLM related to the topic of the submission.

The time between submission and final publication in most cases has been two to four months depending on the diligence of Peer-Reviewers and Authors.

The International Journal of Medical Students is published online quarterly (March, June, October, December) by the University of Pittsburgh Library System, a member of the Open Access Scholarly Publishers Association, as part of its Pitt Open Library Publishing imprint.

The journal main office is located in the United States of America (USA). Any publication, dissemination or distribution of the information included in the Journal is permitted if the source is cited (Int J Med Stud).

The IJMS acceptance rate is 18% of the almost 350 annual submissions. Published articles in 2021 came from 32 different countries. The average days to a first decision is 14 days, 143 for acceptance, and 31 to decline a submission. The time between submission and final publication in most cases has been three to four months depending on the diligence of Peer-Reviewers and Authors.

The journal’s website got over 75 thousand visits only in 2021. The IJMS’s reach includes a growing social media presence (more than 17,000 followers on Twitter, Facebook, Instagram, YouTube, and LinkedIn). Only in the last 2 years, the Journal has been visited from nearly every place in the world (+190 countries). You can find more of the IJMS statistics here.

The Journal and the Editorial Board are not responsible for the opinions expressed by the Authors of all materials published, nor do these represent the Official Policy or medical opinion of the Journal or the institutions with which they are affiliated unless otherwise stated.

Open Access Policy

This journal provides immediate open access to its content. Our publisher, the University Library System at the University of Pittsburgh, abides by the Budapest Open Access Initiative definition of Open Access to open access to peer-reviewed research literature as "(...) free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited."

Furthermore, we encourage authors to post their pre-publication manuscript in institutional repositories or on their websites prior to and during the submission process, and to post the Publisher’s final formatted PDF version after publication. These practices benefit authors with productive exchanges as well as earlier and greater citation of published work.

There are no article processing charges, submissions fees, or any other costs required of authors to submit, review or publish articles in the IJMS.

Peer Review Process

All papers submitted to the International Journal of Medical Students will undergo a two steps peer-reviewers process. The first step of revisions is carried by two anonymous Student Editors who will work together with one Associate Editor. In the second step, the manuscript will be reviewed by two anonymous reviewers (Editorial Board members, Associate Editors and/or invited reviewers with expertise in the subject matter). Authors will remain anonymous to all the referees.

The IJMS review process guarantees and supports the quality and validity of the work published at the IJMS. Reviewers are given three weeks to complete their tasks.

Reviewers and editors are obliged to retain the contents as privileged and confidential until publication. The Editor in Chief and the Editorial Board will have final authority over an article’s suitability for publication.

The IJMS also strive towards the training of a new generation of Editors and Peer-reviewers promoting different training strategies among our Editorial Team that includes the Web of Science Academy courses and the Committee on Publication Ethics (COPE) courses available to its members (IJMS is a member of COPE).
Archiving

This journal utilizes the LOCKSS system to create a distributed archiving system among participating libraries and permits those libraries to create permanent archives of the journal for purposes of preservation and restoration.

## Table of Contents

### Editorial

**Research Grant Proposal Writing Course for Students in Higher Institutions**  
Genevieve Dable-Tupas, Victoria Toralba-Lupase, Juan C. Puyana, Miheia-Alexandru Gâman.  

**The State of Medical Education in a Post-pandemic World: Reflection from IJMS Authors and an Overview of the IJMS Volume 10 Issue 3**  

### Original Article

**Factors Associated with Poor Sleep among Young People in Mauritius: A Survey-Based Study**  
Yudisha Devi Ramdhany, Smita Sulackshana Devi Goorah, Jayrani Cheeneebash, Ritwij Niketan Oodun.

**Roles and Functions of a Non-Academic Medical School Facebook Page from the Students Perspective: A study of Usage and Survey Data**  
Qi Zhuang Siah, Ella Sykes, Caitlin Golaup, Julie Browne.

**Bearing the Burden of Tick-Borne Encephalitis in Europe, 2012-2020: Rising Cases, Future Predictions and Climate Change**  
Aswathy Varma, Marta Szlaszynska, Assaf Ben-Haim, Neofytos Ilia, Silvia Tarricone, Justyna Lewandowska-Bejm, Francesco Visentin, Annalisa Gadler.

**Comparison of Quality of Life of Medical Students in Annual and Modular System in Public Sector Medical Colleges in Karachi, Pakistan**  
Ayema Haque, Sobia Mansoor, Fartheen Malik, Jawad Ahmed, Zeba Haque.

**Acceptance of COVID-19 Vaccine Among Unvaccinated Filipinos**  
Short Communication
Satisfaction of Medical Students with Surgical Training: A survey of Northern Italy
Gabriela Azevedo Sansoni, Patrizia Borzi, Preetha Karki, Shahzeen Khan Sajid, Anastasia Semikhnenko, Aswathy Varma.

Review
Exploring Adult Patients’ Perceptions and Experiences of Telemedicine Consultations in Primary Care: A Qualitative Systematic Review
Jack Allen.

Case Report
A Cadaveric Study on the Anomalous Origin of Renal and Gonadal Vasculature: An Observational Study
Penelope C. Farris, Dylan M. Macciola, Lauren N, Barazani, Justin R. Nathan, Danielle Quinn, Daniel F. Peters.

Experience
Working at a Cancer Research Laboratory as a Medical Student: Experience of an Indian Student Studying Medicine in Russia
Shinjit Mani.

Assess, Adapt, & Innovate: An Effort to Ensure Sustainability of Medical Student-led Community Engagement during the COVID-19 Situation in Indonesia
Angelina Patricia Chandra, Stella Kristi Triastari, Shafira Aurelia, Muhammad Mikhail Athif Zhafir Asyura.
