Year 2022 - Volume 10 - Issue 3

EDITORIAL STAFF

Editor in Chief

Francisco Javier Bonilla-Escobar, MD, MSc, PhD(c)
University of Pittsburgh, USA. University of Valle, Colombia

Scientific Editor

Mihnea-Alexandru Găman, MD, PhD student
"Carol Davila" University of Medicine and Pharmacy, Bucharest, Romania

Deputy Editor

Ciara Egan, BSc
Humanitas University, Milan, Italy

ASSOCIATE EDITORS

Adnan Mujanovic, MD
University of Bern, Bern, Switzerland

André Yvan Zolo Ossou, MD, MSc
University of Cape Town, South Africa

Andrew Thomas, MBBS student
SreeGokulam Medical College and Research Foundation, India

Duha Shellah
An-Najah National University, Palestine

Francisco Jesus Barrera Flores, MD
Harvard University, Boston, Massachusetts, USA

Kiera Liblik, BSc, MSc, Medical Student
Queen's University, Kingston, Canada

Madeleine J. Cox, MD
University of New South Wales, Sydney, Australia

Mohamed Fahmy Doheim, MBBCh(c)
Alexandria University, Alexandria, Egypt

Mohammad A. Khazeei Tabari, Medical student
Mazandaran University of Medical Sciences, Iran

Najdat Bazarbashi, MD
University of Maryland School of Medicine, Baltimore, MD, USA

Nathaniel Edward Hayward, MB BCh BAO, MSc.
University of Utah, Salt Lake City, Utah, USA

Paul Marcel Morgan, BSc, MD, PhD(c)
University of Belize, Karl Hushner Memorial Hospital, Belize

Sohaib Haseeb, BSc, MD(c)
James Cook University, Queensland, Australia

Sushil Dahal, MBBS
Kathmandu University Hospital, Nepal

Vincent Kipkorir, BSc(H)
University of Nairobi, Kenya

STUDENT EDITORS

Abdul Basith KM
Jawaharlal Institute of Postgraduate Medical Education and Research, India

Ahmed Nahian
California Baptist University-Lake Erie College of Osteopathic Medicine, USA

Alisha Poppen
University College Cork, Ireland

Amaan Javed
University College of Medical Sciences (University of Delhi), India

Andrew Elton
University of Minnesota Medical School, USA

Arkadeep Dhali, MD
School of Digestive and Liver Diseases, Kolkata, India

Ashwini Ramesh Patankar
Dr. D Y Patil Medical College and Hospital, Navi Mumbai, India

Avanthika Chaithanya
Karnataka Institute of Medical Sciences, Bangalore, India

Bahadar Singh Srichawla, MS
University of Massachusetts Medical School, Boston, USA

Benjamin Liu, MD
Case Western MetroHealth, USA

David Ulrich Dalle
North Ossetia State Medical Academy, Russia

Dawin Sichimba
Copperbelt University, School of Medicine, Ndola, Zambia

Diego Carrion Alvarez
Universidad de Monterrey, Mexico

Eugenia M. Ramos-Dávila, MD
Instituto Tecnológico y de Estudios Superiores de Monterrey, Mexico

INTERNATIONAL JOURNAL *of* MEDICAL STUDENTS

The *International Journal of Medical Students* (IJMS)

is an open-access, peer-reviewed scientific journal (ISSN [2076-6327](#)) that publishes original research in all fields of medicine. The Journal was created in 2009 to share the scientific production and experiences of medical students (*i.e.*, MBBS students, MD students, DO students, MD/MSc students, MD/PhD students, etc.) and recently graduated physicians from all over the world. Our objective is to be the primary diffusion platform for early-career scientists, using standards that follow the process of scientific publication.

The *IJMS* receives submissions where there is at least one author enrolled as a medical student in any medical school in the world or a recently graduated physician worldwide. For research articles, early-career scientists must be accompanied by a senior researcher that must be also responsible for the research, guaranteeing the quality of the work. We publish Original Articles, Short Communications, Reviews, Case Reports, Interviews, Experiences, and Letters, which follow an [innovative and unique two-step, double-masked peer-review process](#), in brief:

The first step of revisions is carried out by two Student Editors (medical students with publications indexed in the US National Library of Medicine (NLM) with the supervision of an Associate Editor. The aim of this step is to improve the quality of articles and identify those that can proceed to external peer-reviews. The second step of revisions is carried out by external peer-reviewers who are researchers with publications indexed in the NLM related to the topic of the submission.

The time between submission and final publication in most cases has been two to four months depending on the diligence of Peer-Reviewers and Authors.

The *International Journal of Medical Students* is published online quarterly (March, June, October, December) by the [University of Pittsburgh Library System](#), a member of the [Open Access Scholarly Publishers Association](#), as part of its Pitt Open Library Publishing imprint.

The journal main office is located in the United States of America (USA). Any publication, dissemination or distribution of the information included in the Journal is permitted if the source is cited (*Int J Med Stud*).

The *International Journal of Medical Students* is indexed or abstracted in: Bielefeld Academic Search Engine (BASE), Dialnet Foundation (Dialnet), Directory of Open Access Journals (DOAJ), Directory of Research Journals Indexing, Elektronische Zeitschriftenbibliothek (EZB), e-Revistas, Geneva Foundation for Medical Education and Research, Google Scholar, Health InterNetwork (HINARI), Journal Seek Database, List of Publications that follow the International Committee of Medical Journal Editors (ICMJE), Mexican Index of LatinAmerican Biomedical Journals (IMBIOMED), NewJour, Open Academic Journals Index (OAJI), Online Computer Library Center (OCLC) WorldCat, Pubshub, Research Bible, Rubriq, SHERPA/RoMEO, Scientific Indexing Services (SIS), The e-Journal Gateway (J Gate), The Open Access Digital Library, Ulrich's International Periodical Directory/Summon by Serial Solutions.

The *IJMS* acceptance rate is 18% of the almost 350 annual submissions. Published articles in 2021 came from 32 different countries. The average days to a first decision is 14 days, 143 for acceptance, and 31 to decline a submission. The time between submission and final publication in most cases has been three to four months depending on the diligence of Peer-Reviewers and Authors.

The journal's website got over 75 thousand visits only in 2021. The *IJMS*'s reach includes a growing social media presence (more than 17,000 followers on [Twitter](#), [Facebook](#), [Instagram](#), [YouTube](#), and [LinkedIn](#)). Only in the last 2 years, the Journal has been visited from nearly every place in the world (+190 countries). You can find more of the *IJMS* [statistics here](#).

The Journal and the Editorial Board are not responsible for the opinions expressed by the Authors of all materials published, nor do these represent the Official Policy or medical opinion of the Journal or the institutions with which they are affiliated unless otherwise stated.

Open Access Policy

This journal provides immediate open access to its content. Our publisher, the University Library System at the University of Pittsburgh, abides by the Budapest Open Access Initiative definition of Open Access to open access to peer-reviewed research literature as "(...) free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited."

Furthermore, we encourage authors to post their pre-publication manuscript in institutional repositories or on their websites prior to and during the submission process, and to post the Publisher's final formatted PDF version after publication. These practices benefit authors with productive exchanges as well as earlier and greater citation of published work.

There are no article processing charges, submissions fees, or any other costs required of authors to submit, review or publish articles in the IJMS.

Peer Review Process

All papers submitted to the International Journal of Medical Students will undergo a two steps peer-reviewers process. The first step of revisions is carried by two anonymous Student Editors who will work together with one Associate Editor. In the second step, the manuscript will be reviewed by two anonymous reviewers (Editorial Board members, Associate Editors and/or invited reviewers with expertise in the subject matter). Authors will remain anonymous to all the referees.

The *IJMS* review process guarantees and supports the quality and validity of the work published at the *IJMS*. Reviewers are given three weeks to complete their tasks.

Reviewers and editors are obliged to retain the contents as privileged and confidential until publication. The Editor in Chief and the Editorial Board will have final authority over an article's suitability for publication.

The *IJMS* also strive towards the training of a new generation of Editors and Peer-reviewers promoting different training strategies among our Editorial Team that includes the [Web of Science Academy courses](#) and the [Committee on Publication Ethics \(COPE\)](#) courses available to its members (*IJMS* is a member of COPE).

Archiving

This journal utilizes the LOCKSS system to create a distributed archiving system among participating libraries and permits those libraries to create permanent archives of the journal for purposes of preservation and restoration.
